## Next Meeting:

The next meeting of the Spillway Radio Control Club will be Thursday, May 10th at 7:30 PM. at the P.A.C.E. 750 Union Hall in Norco, LA at 601 Good Hope Street.

## Minutes:

Nathan called the meeting to order at 7:30 PM.

**Old Business** – A vote was held and passed to change the club constitution to increase the club dues to \$30 per year. Another vote was held and passed to remove a line from the club constitution that limits the club spending more than \$1600 per year for grass cutting fees. The changes have been made to the constitution and documented.

**New Business** – Loren received all the club insurance documentation from the AMA stating that the club is in good standing for the year 2007. He also received our incorporation paperwork for this year. You can view incorporation information [here](#).

All membership fees must be paid in full by the May meeting. This includes the additional \$5 to dues and any grass-cutting adjustments that were made from the beginning of the year. The total membership dues for the year with the adjustments to the constitution are \$100.

Wayne Melancon brought the weed and feed for the club to the April meeting and Barry and Al will purchase poison for mole crickets before they damage the field.

Al built a safety bench for the club from plans featured in the April Model Aviation. He said it cost him about \$40 in material costs and is quite stable. He will bring the table to the field for any club member to use. If you would like more information about the bench, visit [Meroke](#).

A request was made by Al, Skip and David to extend the width of the field by a few feet. The club agreed as long as it didn't require more grass to be cut.

New members Wayne Melancon and Larry Gregory were voted in at the April meeting. With the addition of Wayne and Larry and the unpaid members from 2006 being dropped from the club, the 2007 roster is currently 38 members strong.

Nathan and Bill Phelps are now both registered AMA Intro Pilot instructors. This allows non-AMA members can fly under the direct supervision of the intro pilots for up to 60 days. I will add the student pilot registration form to the website as soon as I find it on the AMA website.
