AMA Chapter #979

Founded 1972

at

Officers: President: Gus Praesel 331-9328
 Vice-president: Jon Stephenson 651- 2930
 Treasurer: Loren Bailey 738-1602
 Secretary: Tina Praesel 331-9328

NEXT MEETING:

The next meeting of the Spillway Radio Control Club will be March 9, 2000 at 7:30 PM at the O.C.A.W. Union Hall in Norco. Hope to see you there.

OLD BUSINESS:

Twenty-one members attended the February meeting.

Dues and Grass cutting dues are due at the next meeting.

Byron who is the man who cuts the grass has agreed to \$4.00 more to cut the west end of the field every time so his fee is going to be \$225.00 a month instead of \$206.00 a month. He normally cut from April through November but this year it looks like he will have to cut from March through October.

Our numbers for the channel board is up. Lets not forget to thank Gary for his hard work.

Fred gave us a report on the grass. He was told that it would have to 70 degrees for grass to germinate. He was also told that Yuma is the grass that best fits the needs of

the field, it is the type they use for the golf course. The price would be \$4.90 per pound or he would sell us 50 pounds for \$93.00. It takes 2 pounds for 1000 square feet and we wanted to seed more often than we have been doing.

It was suggested that centipede grass might be one to look into. The grass is flat and runs long and makes a mat. Fred said he would talk with LSU and find out which one would do best.

The clover was cut down so thank you to who ever did that!

NEW BUSINESS:

Jon has e-mailed AMA about the hits he has told us about. They have a spectrum analyzer that will find out which frequency is being hit and when it is worse. They loan these out to clubs free for just such situations. Jon has found out who to talk with and request one and we all agree that this should be done as soon as possible.

It was brought to our attention that if you have a cell phone it is best to leave them in your car because if worn on your belt can effect the radio frequency.

Donnie Clement told us he has been out of the flying lately but that he is back now and we welcome him back.

Jon has arranged for a night fun fly unfortunately is was canceled due to the weather.

(I understand some did go out Sunday and flew and enjoyed maybe we will hear about this at the nexted meeting.)

There are things we need to fly at a night fun fly: a slow flying plane, a flashlight and RC NEON to mount in the wing tips they sell for \$19.00 and come in green or yellow. We can now all prepare because I sure we will be trying this again soon.

M.O.M.

David Lee:
40 size Armidello
10/6 prop
green with yellow strips
It stall at the last minute.

Jason Sharbonno:
Sig King Kobra 60
Retracts- 3/16 struts for sping ait -numatic airpressure
G75 with mac's tuned pipe
7lbs. 12 oz.
Jason won and put the money back. Thank you Jason.

After the meeting we watched a flim on night flight.
Thank you Al.

FUEL:

We are now officially out of Fuel so if it has not been ordered by the time we have our meeting and you have something special you need then you need to bring it up so we can arrange something.

For comments or suggestion please call:
Tina Praesel @ 331-9328
