Next Meeting:

The next meeting of the Spillway Radio Control Club will be Thursday, June 12th at 7:30 PM. at the P.A.C.E. 750 Union Hall in Norco, LA at 601 Good Hope Street.

Minutes:

Cary called the meeting to order at 7:30 PM. Loren gave the Treasurer's Report shortly after. Our records show that the club currently has \$4,881.92. Cary read the minutes from the previous meeting.

Old Business – Kenny Keating has graciously accepted the Secretary position. We diffidently look forward to all of his help. There wasn't much in the old business department at the last meeting. The main topic was the water level in the spillway.

Al has completed the club frequency list, if there are any corrections that need to be made please let him know.

New Business – The water is finally off of the field and the damage doesn't seem to be to bad. Kenny was able to make it to the field and took note of the damage that needs repairing. Some of the problems are a large hole on the west side of the runway, the dirt road on the east side of the runway was washed away and has a large drop-off from the runway, also most of the dirt has been washed away from the trees in the pits. The grass on the field looks good and will need to be cut as soon as it's safe to do so. Al spoke to the parish and the Corp. There is no set date when the road will be repaired but they will not start until all the water is gone from the South side of the road. The Corp also said they will fix the road on the east side of the runway. Cary will be able to get a bobcat on Sunday the 1st to fill in the hole on the west side of the runway and spread dirt over the exposed tree roots. If anyone want to come out and help please let him know at (504)234-8524. Also Al, Loren and some other members are planning on working this Saturday the 24th. If you can help please let them know. One of the other things that needs repair is the perimeter fence and the safety fence between the field and the pit area.

A big congratulation to Buck Price, Kenny Keating, and Don Guidry who were all presented with their solo certificates.

Skip brought some great pictures of the wildlife that inhabited the spillway during the flooding. There were some great shots including large alligators and some beautiful bald eagles.
