AMA Chapter #979

Founded 1972

at

Officers: President: Gus Praesel 331-9328
 Vice-president: Jon Stephenson 651- 2930
 Treasurer: Loren Bailey 738-1602
 Secretary: Tina Praesel 331-9328

NEXT MEETING:

The next meeting of the Spillway Radio Control Club will be September 14, 2000 at 7:30 PM at the O.C.A.W. Union Hall in Norco. Hope to see you there.

OLD BUSINESS:

Ten members and two guests were present at the August meeting.

Minutes and treasury reports were not read due to all officers unable to attend the August meeting.

Glynn Breaud was voted in by the members that were present. Let's welcome him when we see him at the field.

New Business:

Allen Smith ran the last meeting because none of the club officers were going to be present for the meeting. Gus and Tina called Allen and asked if he would conduct the meeting and he accepted. **Thank you!**

Guest Roddy Ory introduced himself and wants to fill out a club application. He will be given one at the next meeting so he can fill it out. He works for the Grain Elevator and has flown R/C models in the past and has won trophies in pattern flying. He has applied for his AMA membership and is waiting for his card.

LOOKING FOR FUEL?

Many people have asked me where to get fuel. We will be going to Gary Sharbonno's place of business. Here are the directions as I understand them. Go to Bambridge behind the airport, go 6 blocks to 24th street and turn right go 4 blocks to Augusta Street. It is the large blue building at 2311 Augusta St. You will need to knock on the door and his secretary will help you. If you need more instructions I am sure Gary will give them to you just call him at 887-8377. I will bring a map to the next meeting so anyone who is confused can look on it.

Davis Schwartz attended the meeting and wanted to thank the club for letting him fly at our field.

M.O.M.

Glynn Breaud: Donated the prize money back to club. Thank You.

Astro Hog
 Covered in military style with blue and yellow Monokote.
 Magnum 61 engine
 JR radio

For Safety Sake: This is AMA Code in order for Liability Protection to apply. (I will put 2 rules in a month.)

General:

7.) I will not fly my model unless it is identified with my name and address or AMA number, on or in the model. Note: This does not apply to models flown indoors.

8.) I will not operate models with metal bladed propellers or with gaseous boosts, in which gases other than air enter their internal combustion engine(s); nor will

I operate models with extremely hazardous fuels such as those containing tetranitromethane or hydrazine.
